EDUCATION

GEORGIA COLLEGE & STATE UNIVERSITY

Milledgeville, Georgia—B.S., Biology, May 2012

EXPERIENCE

CLASSIC CITY CONSULTING

UI Design / Development, May 2017 - Present

Use knowledge of both UI design and development to collaborate with designers, developers, and clients to ensure functional and timely delivery of their vision.

Work closely with a team to design and develop responsive UI for a web based NodeJS/Angular 4 application.

Design and update new and existing client websites using Wordpress, CSS, and JS.

GENERAL ASSEMBLY

Web Development Student, Oct. 2016 - Feb. 2017

Participated in a FT project based web development program. Built and deployed multiple full stack web apps using several development technologies and best practices.

Projects

SUMON:
A simple and visually engaging math game built using HTML, CSS, jQuery, and JavaScript

MY STORY BOOK:
Worked with a team to create a MEAN stack children's story book app with an Angular.js front-end and CSS3 styling

BROWN INTEGRATED LOGISTICS

Business Analyst, Sept. 2013 - Sept. 2015

Created an integrated database for automated lane rating system.

Worked with various teams to identify opportunities for increased efficiency using custom SQL / Excel programs.
